

# Know Freedom - Disclaimers & Disclosures

Updated: 4/1/2025

## General Disclaimer

Know Freedom operates as a decentralized, community-driven initiative aimed at promoting charitable giving and volunteerism through blockchain technology. Participation in the Know Freedom ecosystem, including purchasing, operating, and interacting with Know Freedom nodes and digital rewards, is voluntary. The SERV coin and digital rewards earned through Know Freedom's blockchain do not constitute an investment, financial security, or guarantee of profit. Their value is determined by community participation, utility, and ecosystem engagement. Participants are responsible for understanding and adhering to the laws and regulations in their respective jurisdictions.

## Know Freedom Blockchain Disclaimer

The Know Freedom Blockchain is an open-source, decentralized network designed to facilitate charitable contributions, incentivize community participation, and enhance transparency in philanthropy. The network does not guarantee the continued operation of any specific software, service, or feature. Digital rewards and incentives distributed through the blockchain are solely intended for use within the Know Freedom ecosystem and are not an investment vehicle.

## Important Notes:

- Know Freedom does not provide investment advice, financial planning, or assurances of token value appreciation.
- The governance of the blockchain is decentralized, meaning no single entity controls the issuance, utility, or future developments of the ecosystem.

## SERV Digital Reward Disclaimer

SERV Digital Reward is a reward token designed exclusively for use within the Know Freedom ecosystem. It is earned through participation, service, and community engagement. SERV Digital Reward is not legal tender, does not represent an investment, and is not intended to be a security under any applicable law. It may not have any value outside the Know Freedom platform and cannot be redeemed for fiat currency.

## SERV Coin Disclaimer

The SERV coin is a utility token designed for community engagement, volunteer-based rewards, and digital interactions within the Know Freedom ecosystem. SERV is not legal tender, an investment product, or a security under applicable laws. There is no guarantee of liquidity, appreciation, or redemption for fiat currency. Participants acknowledge that SERV may never have any value outside of the Know Freedom platform.

### **Key Risks of Holding SERV:**

- SERV has no inherent monetary value and is not backed by any assets or government entity. There is no assurance of market liquidity for SERV on exchanges. SERV may be subject to regulatory changes that could impact its usability.
- There are no refunds or guarantees for SERV transactions.

### **Digital Rewards & Proof of Service Disclaimer**

Know Freedom's Proof of Service protocol rewards users for contributions to verified volunteer activities, community engagement, education, and platform participation. These rewards are distributed as incentives only and do not constitute wages, salaries, or investments.

Participants should note:

- Digital rewards earned do not represent ownership or equity in Know Freedom or its affiliated organizations.
- The issuance of rewards is not guaranteed and is subject to change based on governance decisions and platform updates.
- Digital rewards may not be converted to fiat currency and their utility remains limited to the ecosystem.

### **Software Node Operation Disclaimer**

Operating a Community Node, Impact Node, or Validator Node within the Know Freedom Blockchain does not constitute an investment. Node operators contribute computational resources to support network functions but are not entitled to financial returns.

- Running a node does not create a contractual obligation between the participant and Know Freedom.
- Running a software node does not grant ownership or equity in Know Freedom or any of its affiliated organizations.
- Node rewards are not guaranteed and are subject to protocol rules and community governance.
- Participants assume all technical and operational risks associated with node setup, maintenance, and connectivity.

### **Nonprofit & Charitable Contributions Disclaimer**

Know Freedom collaborates with charitable organizations to promote decentralized giving. However, Know Freedom itself does not act as a nonprofit and does not process or hold charitable funds.

- All donations made through the Know Freedom ecosystem are at the discretion of the donor.
- Know Freedom does not guarantee tax-deductibility or regulatory compliance for donations.
- Organizations receiving contributions are responsible for their own governance, accountability, and regulatory compliance.

## **Privacy & Data Disclaimer**

Know Freedom values privacy and decentralization, but users acknowledge that blockchain technology operates on public and immutable records.

- Transactions recorded on the Know Freedom Blockchain cannot be deleted or altered.
- Users are responsible for protecting their own private keys and digital assets.
- Know Freedom does not control third-party integrations, wallets, or exchanges, and users must review the terms of any external services they engage with.

## **Regulatory & Compliance Disclaimer**

The legal status of blockchain technologies and digital assets varies by jurisdiction. Know Freedom does not provide legal, tax, or financial advice.

- Participants are responsible for ensuring their compliance with local laws and regulations regarding digital assets.
- Governments or regulatory bodies may impose new restrictions or requirements on blockchain activities, which could affect the availability and usability of Know Freedom services.
- Know Freedom is not liable for changes in laws that impact access to the platform.

## **Forward-Looking Statements**

Any statements regarding future developments, features, or performance of Know Freedom and its blockchain are forward-looking in nature. These statements are based on expectations and assumptions and are not guarantees of future outcomes.

Actual results may differ materially from projections due to factors such as:

- Changes in regulatory landscapes.
- Shifts in community participation and governance.
- Technological advancements or security concerns.

## **Third-Party Services & Hosting Disclaimer**

Know Freedom may integrate with external services, node-hosting providers, and platforms, but does not control or endorse third-party offerings.

- Users engaging with third-party providers (e.g., node hosting services) do so at their own risk.
- Know Freedom is not responsible for the security, uptime, or performance of any external services.

## **Security & Risk Disclaimer**

Participating in blockchain-based systems comes with inherent risks. Know Freedom cannot guarantee the security of funds, transactions, or data.

**Key Risks:**

- Loss of private keys can result in permanent loss of digital assets.
- Smart contract vulnerabilities could expose users to risks beyond Know Freedom's control.
- Blockchain congestion and transaction delays may affect service performance.
- Cybersecurity threats such as hacking, phishing, and malicious attacks remain an industry-wide risk.

**Unanticipated Risks**

As blockchain technology and decentralized applications evolve, new risks may emerge that are not explicitly outlined here. Participants should remain informed, exercise caution, and conduct their own due diligence before engaging with Know Freedom's blockchain, nodes, or digital rewards.

**Final Notice**

By participating in Know Freedom, users acknowledge and accept the risks, terms, and limitations outlined in this disclaimer. Know Freedom reserves the right to modify these terms at any time to reflect changes in governance, technology, or regulatory requirements.
